# Our Journey

**Evonith Steel**, an integrated steelmaker comprises two entities – Evonith Metallica Limited & Evonith Value Steel Limited

**Evonith Metallica Limited:** 1.4 mtpa BF based iron making facility

**Evonith Value Steel Limited:** 1.1 mtpa EAF based steel making plant

Acquired by **Nithia** in December 2020 and has been successfully turned around through process improvements, strong governance, capital provision, capacity enhancements and various sustainability initiatives

Backed by a strong & professional management team led by **Nithia**, who have several decades of experience of operating in the steel industry globally bringing this wealth of experience to **Evonith Steel** to ensure best practices and focus are brought to the organisation

**Evonith Steel** is now well set to ride the next cycle of growth that is underway in India

| Unit                         | Capacity (MTPA) |
|------------------------------|-----------------|
| Sinter Plants (1&2)          | 2.52            |
| Coke Oven                    | 0.50            |
| Blast Furnaces (1&2)         | 1.40            |
| Steel Melting Shop           | 1.10            |
| Hot Rolling Mill             | 1.00            |
| Cold Rolling Mill            | 0.35            |
| Galvanizing Plant            | 0.32            |
| DI Pipe (to be commissioned) | 0.30            |

**nithia**  
WE PERFORM. WE TRANSFORM.

# Strategic Location

- One of the **Largest Integrated Flat Steel Producers in Central India**
- Only **DI pipes producer in c.300 Km radius**
- Strategically located close to India's **geographical center**
- Well connected by roads and railways with access to all **key product markets across India**
- **Five-platform railway siding** for logistical ease
- **Proximity to iron ore mines** helps in sourcing raw materials in a cost-efficient manner

# Brand Promise

**Here  
for** *Excellence*

We leverage collective expertise to fabricate every tonne of steel and steel products.

We guarantee product quality aligns with our established standards prior to customer delivery.

**Here  
for** *Impact*

To positively impact the environment, we assess our products' life cycle and produce high-strength steel utilizing recycled scrap.

Community welfare and well-being are major focus areas for us with dedicated efforts and teams in place.

**Here  
for** *People*

Our employees aim to provide exceptional customer experiences, fostering customer loyalty.

Our success stems from our commitment to holistic learning and collaborative efforts, yielding consistent results.

# Product Portfolio

Here *for Excellence*

## Hot Rolled

Hot rolled steel is a versatile material used in various industries for multiple applications. It offers better material homogenization and eliminates casting defects.

Agricultural Products  
Automotive  
General Engineering  
Railways & Wagons  
Pressure Vessels

## Cold Rolled

Revolutionizing auto, packaging, and power industries. Our state-of-the-art process creates polished, durable, and versatile steel.

Packaging Industry  
Marine Containers  
Coach Building  
ESP Application

## Galvanized

Neelpankh brand stands for strength and protection. Our zinc-iron alloy coating creates a powerful barrier against moisture and corrosion, ensuring long-lasting durability.

Mounting Base for Solar Panels  
Decking for Construction  
Grain Storage Solutions  
Medical Industries  
General Engineering Steel  
Racking for Warehousing

## DI Pipes

Ductile Iron Pipes for performance-driven water and infrastructure projects

Infrastructure  
Water

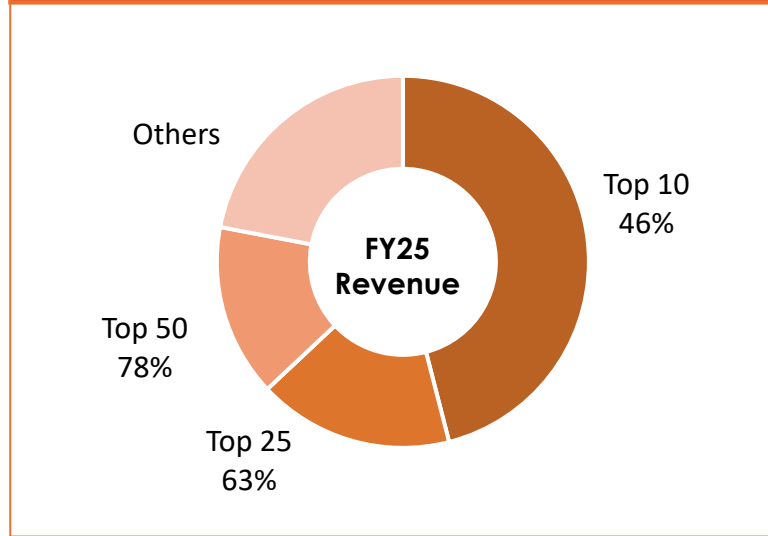

## Pig Iron

Pig iron is the intermediate product obtained from smelting iron ore with high-carbon fuel. We produce both steel grade pig iron and foundry grade pig iron.

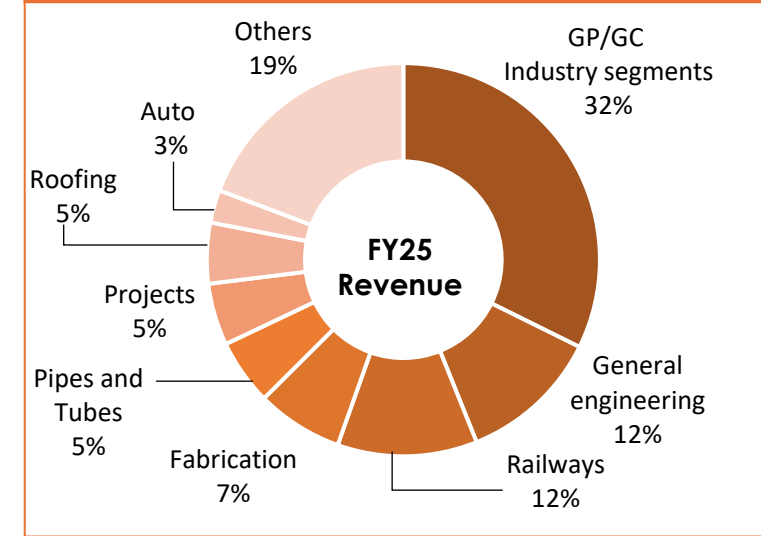

Castings  
Secondary Steelmaking

## Diversified revenue base

## Wide end-sector applications

## Serving a well diversified clientele of reputed customers spread across industries

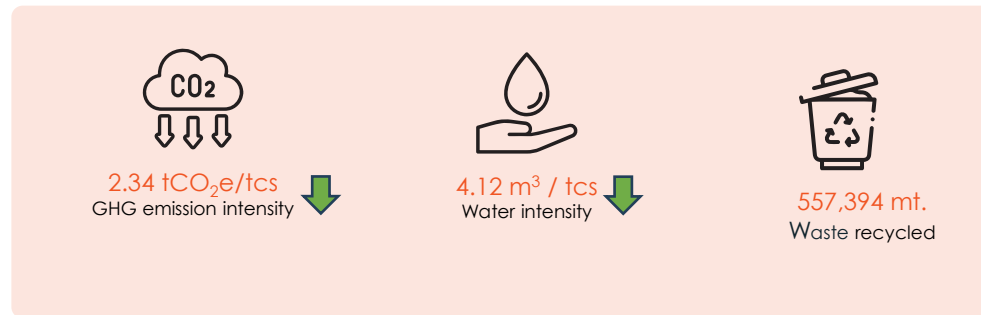

Here  
for *Impact*

As we forge steel for tomorrow's world, our commitment to environmental responsibility, social equity, and ethical governance is not just a choice; it is our legacy in the making.

Together, let's work for a **BETTER PLANET.**

We believe that true progress means advancing social good alongside economic growth. Our commitment to sustainable development fuels our passion for driving holistic social progress, ensuring that our efforts benefit both present and future generations.

Together, let's shape a **BETTER SOCIETY.**
